The Spark's Show.

The managers of the John H. Sparks' Show claim that they have the highest class, cleanest and best exhibition of the kind traveling. Twenty years of experience, with ample capital and intelligent management have combined to produce this result. Their claims are well founded seem to be proven by the following extracts from late newspapers:

"The Mount Vernon 'Daily Banner' says: 'The John H. Sparks' Show exhibited here Wednesday, and many people were turned away, the big tents being packed at each performance. This was no doubt owing to the popularity which this show has achieved here on previous visits. They more than sustained their reputation, as the show is even better than ever. It has been considerably enlarged, with many new acts and features, and all were excellent. Mr. Sparks will have no mislargo his seating capacity if he comes to this city again.'

"The Barnesville 'Enterprise' says: 'Great crowds hugely enjoyed the two performances given by the Sparks' Show last Monday. The show has had a growth since it was here before, and it is generally agreed that it is the best exhibition of the kind that has ever come to Barnesville. If more were necessary, we have hundreds in a single strain from every section of the United States. The John H. Sparks' Show will exhibit
